Taylor Sturtz

*Software Developer from Irvine, CA*

📞 949-500-3960
🔗 taylorsturtz.com
@ taylorsturtz@gmail.com

I write empathetic code and build applications that people connect with directly. Regardless of the platform, solving difficult problems and building smooth user experiences is my jam.

Skills *(in order of expertise / familiarity)*

JavaScript / TypeScript · React / React Native · Redux / Redux Saga · HTML5 / DOM / Canvas · CSS3 / SASS · REST / GraphQL · Node.js · AngularJS / Angular · jQuery · Firebase · Unit Testing · Agile / Scrum · Webpack / Gulp · Git · Linux · Gatsby / Jekyll · MongoDB · PHP / Laravel · Golang · CI/CD · Serverless · SQL · Python

Experience

Software Developer • *Ytel*
May 2017 - present • Foothill Ranch, CA

- Developed and often led React/Redux enterprise web apps on a collaborative team.
- Engineered a full-featured GUI workflow on the browser canvas.
- Introduced unit-testing to our client-side code bases and maintained coverage.
- Wrote and adapted CI and node scripts to drive DevOps culture and improve productivity and performance through automation.

Web Developer • *Ytel*
March 2017 - May 2017 • Foothill Ranch, CA

- Developed projects in HTML5, CSS/SCSS, JavaScript, Jekyll, Gulp, and Firebase.
- Managed DNS, migrated, configured, and maintained marketing websites on an optimized LEMP stack virtual machine.

Web Designer/Developer • *Freelance*
July 2016 - Oct 2016 • Irvine, CA

- Newport Coast real estate website: *annackerman.com*
- Love Formula card game website: *loveformulagame.com*

Lead Web/Graphic Designer • *MMG INTL*
July 2011 - Sept 2016 • Orange, CA

- Led design projects and wrote HTML/CSS for client websites.
- Streamlined internal procedures: variable data templating; Slack integrations; Zapier automation.
